

Microlife. A partner for people. For life.

Microlife is a world leader in development and manufacturing of medical diagnostic equipment for home monitoring and institutional use. Having the headquarter in Taiwan, Microlife in Widnau coordinates Sales & Marketing for Europe, Africa and Middle East.

Our office in Widnau is looking for a

SENIOR SALES MANAGER

East Europe & Central Asia

Job function and responsibility:

- Accomplish target revenue, margin and distribution objectives
- Support and enhance our existing distributors in Microlife brand development
- Analyse our key markets in East Europe and Central Asia and perform business development
- Establish networks to important key opinion leaders and medical associations

What we expect:

- Solid economic education and experiences
- Minimum 10 - 12 years successful background in sales and market development (preferred for medical – consumer goods)
- Entrepreneur personality, objective oriented
- Experiences to work within a multi-culture environment
- Required languages as a must: fluent in English, German and Russian
- High ambition of intense travelling in East Europe
- Working location in Widnau, Switzerland

Microlife offers you a highly flexible and challenging work environment, exposure to international colleagues and clients, as well as the support of a professional young, dynamic and motivated team. Interested? Please send your CV and your cover letter in English to Microlife:
