SWAROVSKI STANDS FOR SPIRIT.
SWAROVSKI STANDS FOR SUCCESS."**

You are interested in this challenging position and enjoy working with a dynamic team?

To strengthen our Quality and Compliance Center team based at our location in the Principality of Liechtenstein, we are seeking for the position of

PROJECT MANAGER QCM

WHAT YOU CAN EXPECT

The jobholder is responsible to manage projects mainly for Europe and implementations in Asia within Quality and Compliance Management Jewelry. The role of the Project Manager is to define and plan projects. For the execution of projects the jobholder is responsible for keeping the scope, the timeline and the budget of a project. This includes coordination with external suppliers of coating technologies in close collaboration with the Project Owner.

You will have the following main responsibilities:

- Define and plan the project scope, targets, timeline and deliverables in close collaboration with the Project Owner.
- Effectively communicate project expectations to project team members in a timely and clear direction.
- Control and oversee the execution of the project plan.
- Identify and resolve issues and conflicts within the project team.
- Identify and manage project dependencies and critical path.
- Develop and deliver status reports, proposals, requirements, documentation and presentations.
- Proactively manage changes in project scope, potential risk analysis, come up and implement contingency plans.
- Coach, mentor, motivate and supervise project team members and influence them to take positive action and accountability for their assigned work packages.
- In the role as a Project Leader the jobholder is responsible for the full implementation of the milestones, actions and the measurement of KPI's and reaching the targets.

WHAT WE EXPECT

You hold a bachelor degree and bring approximately 5-8 years experience in project management, ideally within a quality and compliance department. Your experience as a flexible and solution-oriented project manager and your good communication & strategic coordination skills are the key to drive your projects and reach the Swarovski quality standards.

Plus, you have a good understanding of supply chain and innovation management and a good understanding of technical interrelationships. For your daily work with our colleagues in Asia you are used to respect their cultural behaviors. You bring an experience within a cross-functional or matrix-organisation.

You proactively and independently bring your support to your clients, always pursuing the best interests of the business. A strong command in English and German is required. Your qualifications are rounded out by a strong command of MS Office (particularly Excel) and SAP (BW and QM).

Does this sound like you? If so, we look forward to receiving your online application.
